challenging previous accounts megargee shatters the myth that german generals would have prevailed in world war ii if only hitler had not meddled in their affairs instead he observes that the military's strategic ideas were no better than hitler's and often were worse 20 photos

follows the nazis attempts at a large scale deportation system after its invasion of poland in 1939 as it sought to reclaim territory and repatriate that space with an ever expanding population of ethnic germans standing in the way however were millions of ethnic poles rutherford recounts the strenuous efforts and unexpected obstacles to the deportations which in many ways were a dress rehearsal for the final solution

adolf hitler had high hopes for his conquest of norway which held both great symbolic and great strategic value for the fuhrer despite early successes however his

ambitious northern campaign foundered and ultimately failed adam claessen for the first time reveals the full story of this neglected episode and shows how it helped doom the third reich to defeat hitler and raeder the chief of the german navy were determined to take and keep norway by doing so they hoped to preempt allied attempts to outflank germany protect sea lanes for german ships access precious scandinavian minerals for war production and provide a launchpad for luftwaffe and naval operations against great britain beyond those strategic objectives hitler also envisioned norway as part of a pan nordic stronghold a centerpiece of his new world order but as claessen shows hitler s grand expectations were never realized gring s luftwaffe was the vital spearhead in the invasion of norway which marked a number of wartime firsts among other things it involved the first large scale aerial operations over sea rather than land the first time operational objectives and logistical needs were fulfilled by air power and the first deployment of paratroopers although it got off to a promising start the german effort particularly against british and arctic convoys was greatly hampered by flawed strategic thinking interservice rivalries between the luftwaffe and navy the failure to develop a long range heavy bomber the diversion of planes and personnel to shore up the german war effort elsewhere and the northern theater s harsh climate and terrain claessen s study covers every aspect of this ill fated campaign from the 1940 invasion until war s end and shows how it was eventually relegated to a backwater status as germany fought to survive in an increasingly unwinnable war his compelling account sharpens our picture of the german air force and widens our understanding of the third reich s way of war

on the murderous road to racial purity hitler encountered unexpected detours largely due to his own crazed views and inconsistent policies regarding jewish identity after centuries of jewish assimilation and intermarriage in german society he discovered that eliminating jews from the rest of the population was more difficult than he d anticipated as bryan rigg shows in this provocative new study nowhere was that heinous process more fraught with contradiction and confusion than in the german military contrary to conventional views rigg reveals that a startlingly large number of german military men were classified by the nazis as jews or partial jews mischlinge in the wake of racial laws first enacted in the mid 1930s rigg demonstrates that the actual number was much higher than previously thought perhaps as many as 150 000 men including decorated veterans and high ranking officers even generals and admirals as rigg fully documents for the first time a great many of these men did not even consider themselves jewish and had embraced the military as a way of life and as devoted patriots eager to serve a revived german nation in turn they had been embraced by the wehrmacht which prior to hitler had given little thought to the race of these men but which was now forced to look deeply into the ancestry of its soldiers the process of investigation and removal however was marred by a highly inconsistent application of nazi law numerous exemptions were made in order to allow a soldier to stay within the ranks or to spare a soldier s parent spouse or other relative from incarceration or far worse hitler s own signature can be found on many of these exemption orders but as the war dragged on nazi politics came to trump military logic even in the face of the wehrmacht s growing manpower needs closing legal loopholes and making it virtually impossible for these soldiers to escape the fate of millions of other victims of the third reich based on a deep and wide ranging research in archival and secondary sources as well as extensive interviews with more than four hundred mischlinge and their relatives rigg s study breaks truly new ground in a crowded field and shows from yet another angle the extremely flawed dishonest demeaning and tragic essence of hitler s rule

following the enormous success of hitler hubris this book triumphantly completes one of the great modern biographies no figure in twentieth century history more clearly demands a close biographical understanding than adolf hitler and no period is more important than the second world war beginning with hitler s startling european successes in the aftermath of the rhineland occupation and ending nine years later with the suicide in the berlin bunker kershaw allows us as never before to understand the motivation and the impact of this bizarre misfit he addresses the crucial questions about the unique nature of nazi radicalism about the holocaust and about the poisoned european world that allowed hitler to operate so effectively

the first book length biography of the luftwaffe s top field commander wolfram von richthofen a master of the tactical and operational air war one of the key catalysts in the resurrection of the german air force and an ardent and unwavering follower of the fuhrer

this study provides an appraisal of germany s air forces from the post world war i era through the early stages of world war ii the author demolishes several myths surrounding the luftwaffe including the belief that they had no ideas beyond the support of ground forces

by the time hitler declared war on the soviet union in 1941 he knew that his military machine was running out of fuel in response he launched operation blau a campaign designed to protect nazi oilfields in romania while securing new ones in the caucasus all that stood in the way was stalingrad

the state sponsored genocide known as the holocaust was the greatest crime of this century and a seminal event of modern times in this major work klaus fischer unravels the complex history of judeophobia in its four essential forms christian nationalistic social discriminatory and biological racial he argues that german defeat in world war i cleared the way for the pathological judeophobia that formed the core of nazism when hitler turned germany into a racist totalitarian state jews changed from christ killers or alien outsiders to racial subhumans or deadly bacilli fischer carefully explores the german jewish relationship in modern times in all its dimensions he reveals how the nazis anti jewish prejudices became public policy in the third reich and traces the interaction between ideological obsession and bureaucratic decisions that led to the final solution finally fischer shows the global implications of the holocaust by exploring how collectivized and aberrant thinking when it becomes institutionalized in a modern technological state can cause even greater horrors in the future

goebbels film programme his propaganda strategies the planning of perfidious anti semitic feature films and suggestive war newsreels are reflected in these pages and so is hitler s influence and the way in which famous film stars coo operated with the nazi leadership

a comprehensive record of all of hitler s bunkers and command centers including those built and used like the bergof as well as those under construction and those that never got past planning

this report evaluates alternative statistical models of the demand for medical care the report discusses the estimation problems the alternative models considered and the choice of a final model chapter 2 briefly describes the design of the health insurance study which is the source of the data and the sample chapter 3 provides a rationale for and description of each of the models considered and chap 4 indicates the sensitivity of the empirical results to the estimation model chapter 5 compares the models empirically in terms of forecast bias and mean squared forecast error using a split sample technique chapter 6 summarizes the findings of this study
