this second edition of gary s becker s the economics of discrimination has been expanded to include three further discussions of the problem and an entirely new introduction which considers the contributions made by others in recent years and some of the more important problems remaining mr becker s work confronts the economic effects of discrimination in the market place because of race religion sex color social class personality or other non pecuniary considerations he demonstrates that discrimination in the market place by any group reduces their own real incomes as well as those of the minority the original edition of the economics of discrimination was warmly received by economists sociologists and psychologists alike for focusing the discerning eye of economic analysis upon a vital social problem discrimination in the market place this is an unusual book not only is it filled with ingenious theorizing but the implications of the theory are boldly confronted with facts the intimate relation of the theory and observation has resulted in a book of great vitality on a subject whose interest and importance are

obvious m w reder american economic review the author s solution to the problem of measuring the motive behind actual discrimination is something of a tour de force sociologists in the field of race relations will wish to read this book karl schuessler american sociological review

this book makes the bold attempt at proposing a new general theory of economic development the main premise is that economic institutions and policies must embody economic discrimination if there is to be any chance of real economic development by economic discrimination the author means treating differences differently by selecting and supporting economic entities and behaviour that contribute positively to the economy the book identifies markets government and corporations as the holy trinity of economic development that is the three most important institutions that must work together via economic discrimination to steer the economy towards real transformative progress the book also warns against the current trend of economic egalitarianism or not treating differences differently because it destroys economic incentives and results in an array of economic problems including growth stagnation

this text reviews the preventive diplomacy of the united nations suggesting that the security council is not well suited to the task what is needed it argues is a less political and more professional approach namely a larger and more autonomous role for the secretary general and the development of a greater specialist capacity within the secretariat the work gives appropriate weight to the importance of peace building both before and after conflict as an integral part of conflict prevention and the united nations role therein

real examples real companies real business decisions covering the core economics principles and providing engaging relevant examples within just nineteen chapters hubbard essentials of economics is the perfect teaching and learning resource for a one semester unit the authors present economics as a dynamic relevant discipline for australasian students the key questions students of first year economics ask themselves are why am i here and will i ever use this hubbard essentials of economics answers these questions by demonstrating that real businesses use economics to make real decisions every day each chapter of the text opens with a case study featuring a real business or real business situation refers to the study throughout the chapter and concludes with an inside look a news article format which illustrates how a key principle covered in the chapter relates to real business situations or was used by a real company to make a real business decision

the political economy of middle east peace looks at the political economy of the middle eastern peace process with a focus on the politics of trade contributors investigate the ways new commercial alliances develop as a result of economic agencies established via the arab israeli peace process and look at institutions which contribute to redirection of arab intra and inter regional trade such as the palestine monetary authority the middle east development bank and free trade zone agencies in aquaba and dubai

featuring paired pro con pieces written specifically for this volume debating terrorism and counterterrorism conflicting perspectives on causes contexts and responses encourages students to grapple with the central debates surrounding the field of terrorism with topics ranging from the root causes of terrorism the role of religion in terrorism whether suicide terrorism is ever justified whether the spread of democracy can help defeat terrorism and what trade offs should exist

between security and civil liberties gottlieb s outstanding cast of contributors returns compelling students to wrestle with the conflicting perspectives that define the field stuart gottlieb frames the paired essays with incisive headnotes providing historical context and preparing students to read each argument critically each selection has been updated to account for recent world events policy changes and new scholarship new to the reader and by reviewer request is a chapter can global institutions make a difference in fighting terrorism

synopsis thoroughly classroom tested this introductory text provides a balanced up to date non mathematical examination of the economic theory underlying the analysis of inequality poverty mobility and income distribution in the united states

an enlarged edition of thomas sowell s brilliant examination of the origins of economic disparities economic and other outcomes differ vastly among individuals groups and nations many explanations have been offered for the differences some believe that those with less fortunate outcomes are victims of genetics others believe that those who are less fortunate are victims of the more fortunate discrimination and disparities gathers a wide array of empirical evidence to challenge the idea that different economic outcomes can be explained by any one factor be it discrimination exploitation or genetics this revised and enlarged edition also analyzes the human consequences of the prevailing social vision of these disparities and the policies based on that vision from educational disasters to widespread crime and violence

collection of essays examining labour market discrimination the impact of laws and policies the treatment of children compared to the elderly discrimination within the family the economic underclass and the treatment of minority members of society

analyzes the problematic trends facing america s cities and older suburbs and challenges us to put america s urban crisis back on the national agenda

the papers contained in the first part of the book are particularly valuable as a primer for researchers interested in economic discrimination on this basis alone this book is recommended for researchers seeking an overview of current techniques for assessing economic discrimination the final section nicely highlights both the importance in understanding the interaction of policy and economic discrimination and the difficulties in isolating policy effects education economics editor rodgers has compiled a very useful book that summarizes the current state of the literature on economic discrimination this reviewer learned something new and interesting in every chapter and particularly appreciated the clear survey of the age discrimination literature this book will be of value to academics and to those in the legal arena highly recommended j p jacobson choice discrimination s dynamic nature means that no single theory method data or study should be relied upon to assess its magnitude causes or remedies despite some gains in our understanding these remain active areas of debate among researchers practitioners and policymakers the specially commissioned papers in this volume all by distinguished contributors present the full range of issues related to this complex and challenging problem part 1 explores innovations in methods and data collection that help to provide richer descriptions of inequality part 2 reviews empirical evidence on discrimination that people with disabilities older workers and gay lesbian and bisexual individuals face although discrimination among these groups is not new this handbook shows that economists are beginning to more fully document their experiences part 3 presents a balanced discussion of anti

discrimination policies and the impact of affirmative action the methods and data chapters are particularly designed to encourage researchers to utilize the new approaches and develop new data sources accessible and comprehensive the handbook is the seminal reference on the economics of discrimination for academic and professional economists graduate students advanced undergraduates practitioners policymakers and funders of social science research

a former member of the civil rights division of the us department of justice established in 1957 explains the agency s role in combating institutionalized racism he discusses political realities national priorities the widening of the mandate weathering political shifts in washington conflicts between career civil servants and political appointees and other aspects he also analyzes the consequences of its litigation positions and considers whether the structure of enforcement should be changed annotation copyrighted by book news inc portland or
